

# choice and control

choosing your support, your way

## An Invitation to the Choice and Control Provider Surgeries

Worcestershire County Council's Adult and Community Services would like to invite you to one of a series of **Choice and Control Provider Surgeries** to support you to understand and plan for the adult social care transformation programme. The surgeries will support service providers to:

- Access up-to-date information on the Choice and Control programme in Worcestershire
- Understand some of the issues, challenges and opportunities for service providers in the planning, development and delivery of services
- Access support, information and advice from local experts in relation to some of the key changes arising from the programme
- Provide an opportunity for service providers to consider their state of readiness to respond to Choice and Control, using the Provider Self Assessment Tool
- Network with other service providers to share ideas and opportunities for collaboration

There will also be a question and answer session with a panel of local experts and champions. The surgeries will cover some of the key areas of interest for service providers including:

- How to market their services
- Providing outcome focused services
- Working with service brokers
- Workforce implications

The surgeries will offer a real opportunity for you to consider the implications of Choice and Control for your customers, workforce, business and organisation. In preparation for the surgeries, you may find it helpful to complete the Choice and Control Provider Self Assessment Tool available at [www.worcestershire.gov.uk/choiceandcontrol](http://www.worcestershire.gov.uk/choiceandcontrol) Service providers should also ensure that they have appropriate representation from both operational and senior management at the surgeries.

Please complete and return the booking form as attached.

We look forward to welcoming you to one of the surgeries.

Please indicate your preference of date and venue in the box overleaf
