**CSIP West Midlands** have developed an IT tool to enable small/medium VCS organisations to capture service activity information and outcomes data. Both of which are increasingly being required by the commissioners and stakeholders of organisations wishing to deliver public services. The tool will also provide accessible information to commissioners and the user's of services which will support them to feel confident in the organisation. This new FREE tool is called the Activity and Outcomes Database.

**Are you a member of the Mental Health Link Network?**

**Would your organisation like to be able to confidently demonstrate and describe the value, cost effectiveness and outcomes of the service you deliver?**

**Would your organisation be interested in a free and user friendly I.T tool which will support you to make informed decisions around funding, finance, service costs and governance ?**

**Would it make your life easier if you could demonstrate to your funders and stakeholders the “softer outcomes” you achieve with your clients ?**

**If the answer is yes then come along to our Members Briefing Event !**

**To book your place please complete and return the enclosed booking form to: Andrea Cooper, Community First , Malvern View, Willow End Park, Blackmore Park Road, Malvern, Worcestershire WR13 6NN.**

**The aim of the event is to:**

- **Present the new CSIP Third Sector Activity And Outcomes Database**
- **Enable groups to try out the new database and assess the potential benefit for their organisation**

**Who should attend?**

**CEO's, Managers, Development Workers, Funding Officers and anyone else who is interested !**
